Rahaf Mohammed Alqunun is an 18-year-old woman from Saudi Arabia. She says that her family **abuses** her, especially after she **renounced** Islam.

Her family and she went on holiday to Kuwait where she ran away. She got on a plane to Thailand and planned to go to Australia to **ask for asylum**. However, Thai officials stopped her and took her passport away.

She was afraid that Thailand would send her back to Saudi Arabia to her abusive family. She locked herself up in a Thai airport hotel room and asked people for help on social media.

The UN reacted to her situation and gave her refugee status. This gives her some protection.

Difficult words: [abuse](#) (hurt somebody physically or psychologically), [renounce](#) (say that you do not believe in something), [ask for asylum](#) (ask if you can live somewhere else in safety).
