

Snow White

Snow White was the daughter of a beautiful queen, who died when the girl was young. Her father married again, but the girl's stepmother was very jealous of her because she was so beautiful. The evil queen ordered a hunter to kill Snow White but he couldn't do it because she was so lovely. Snow White went into a forest and found a small cottage. Seven dwarfs lived there. Snow White lived with the dwarfs and helped them to look after their house. They loved her.

Then one day the evil queen was told by her talking mirror that Snow White was still alive, and she changed herself into a witch and made a poisoned apple. She went to the dwarfs house dressed up as an old woman and gave Snow White the poisoned apple. Snow White ate the apple and fell asleep. The dwarfs put her into a glass coffin. Finally a prince found her and woke her up with a kiss. Snow White and the prince were married and lived happily ever after.
